DISPOSABLE PONCHOS

Food Preparation/Cooking

Disposable ponchos can protect kitchen staff from spills, splatters, and food stains during meal preparation and cooking.

Hygiene Maintenance

Ponchos help maintain food hygiene standards by preventing cross-contamination from the clothing of food service personnel.

NITRILE GLOVES

Blue - Powder Free

An effective shield against certain chemicals, including detergents, alcohols, biohazards such as viruses and bacteria, bodily fluids, abrasive materials, and more. Nitrile gloves resist punctures and harsh cleaning chemicals.

Black - Powder Free

Nitrile gloves are commonly used in chemistry labs and other industrial environments. They are good for the handling of corrosive acids, bases, and many organic solvents.

Lightweight Blue Powder Free

They are also popular for use in general food preparation as they resist odors and stains.

LATEX GLOVES

Powder Free

Latex gloves are an effective shield for the hands and wrists against certain chemicals, including detergents, alcohols, biohazards such as viruses and bacteria, bodily fluids, abrasive materials, and more.

VINYL GLOVES

Powder Free

Vinyl gloves can be used in a wide variety of situations and industries.

Clear - Powder Free

The most common circumstances where vinyl gloves are suitable for food handling, cleaning tasks, and light medical use such as for examinations with low risk of exposure to body fluid.

HDPE GLOVES

Clear

Made from HDPE (high density polyethylene). They can be used for light duty work in any field.
