## CHEMICALS 5 LITRES

### Evaporating Hand Sanitiser

A powerful hand sanitiser that evaporates on contact with skin. Contains moisturisers to leave hands feeling clean and soft.

### Glass And Window Cleaner

A high strength glass cleaner. Quick drying and non-streaking.

### Toilet Bowl Cleaner

A cleaner/sanitiser designed specifically for toilet bowl applications. Kills odour generating bacteria as well as tackling mould, slime and water stains. Labour saver. Great fragrance.

# CHEMICALS 20 LITRES

## Dishwashing Detergent

An unfragranced and MPI approved manual dishwash/pot scrub with a medium foaming formula. Particularly effective on fatty, greasy dishes.

## Commercial Bleach

A high-strength bleach suitable for a wide range of sanitising and bacteria control applications.

## Commercial Sanitiser

A broad spectrum quaternary sanitiser. Ideal for sanitising food processing areas, including foods, walls, utensils and food preparation areas.

## Commercial Degreaser

A powerful degreaser combined with quaternary sanitiser for a one-step clean and sanitise. Especially effective on animal fats and greases.

## Premium Disinfectant

A powerful disinfectant with a pleasant lingering fragrance, ideal for bathrooms and toilets, kitchens or polished floors. The premium disinfect should not be used on benches and cutting boards where food is going to come into contact with. This is to avoid the fragrance contaminating the food sources. If you have a specific SOP in place, which includes a warm water wash after using the premium disinfect, this will be the only way to use this product on benches or contact surfaces. The premium disinfect is intended to be used in facilities/washrooms. These areas you want a lingering fragrance after cleaning. For benches, cutting boards and contact surfaces you want to use.

## Foaming Cleaner

A heavy duty cleaner combined with a chlorine based sanitiser. For use with or without a foaming system for effective cleaning and sanitising.
